Special Lecture

The Living Body and Magnetism

Kyoto University
Graduate School of Medicine
and Faculty of Medicine

Prof.
Masanori Fukushima

**The "Magnetic Protonics Theory":
Bio-Activation of Cells of Living Organisms Due
To Applied Infrasonic Minute Magnetic Fields.**

The is the world premiere presentation of the achievements of joint-research between Prof. Emeritus Kaneo Mohri of Nagoya University, Department of Engineering and Prof. Masanori Fukushima of Kyoto University, Graduate School of Medicine and Faculty of Medicine.

The MI Sensor detected that Chinese Qigong therapists emit minute magnetic fields during their treatment techniques, and the true nature of their mysterious powers has been clarified from the academic viewpoint of the magnetics field.

The "Magnetic Protonics Theory" has created a new field not only in medicine, but also in the field of life sciences.

Magnetic Attachments for Overdentures

Dankook University
School of Dentistry
Chunan, Republic of Korea

Prof.
In-Ho Cho

Magnetic Attachments for Implant Overdenture

The University of Birmingham
School of Dentistry
Birmingham, UK

Prof.
A. Damien Walmsley

New Type Attachment

Application of Self-Adjusting Attachment to Root Keeper

Private Practitioner
Hiroshima, Japan

Dr.
Katsuhiko Nakao

Application of Self-Adjusting Attachment to Implants

Osaka University
Faculty of Dentistry
Osaka, Japan

Prof.
Yoshinobu Maeda

MI Sensor Application

Application of MI Sensor for the Measurement of Occlusal Position

Niigata University
Graduate School of
Medical and Dental Science
